in the Karaganda Area NO. OF PAGES 1 REQUIREMENT NO. RD REFERENCES 25X1 This is UNEVALUATED Information SOurce evaluations are definitive. Appraisal of Content is tentative. 25X1 1. About 12 hours Rarabas (sic), the train proceeded through a major town which may have been Akmolinsk (N 51-10, E 71-26). 2. The camp north of the camp, a newly constructed railroad embankment, which was about four meters high, branched off from the single-track railroad line. During the system greater of the construction of a railroad bridge over a valley, about 20 meters wide, was started, and 1 km farther a passing siding was built. Comment. The information in this report, indicates that a single-track line running parallel to the Akmolinsk-Karaganda line was being built in 1947. The comstruction of such a railroad line was mentioned in previous reports. The new line may have been built in order to facilitate access to the coal mining area of Karaganda. In previous reports, it was started that Dolinskoye (N 49-40, E 72-40) and Agashtykol (N 50-10, E 72-02) and Aley (N 49-48, E 72-11) are railroad stations on the new line.
